This file works in conjuction with Perchance To Kill including the focused pressure of a context of Deep State events that neccesated conspirators silencing Nancy Guthrie

I have been putting a lot of that history of my writings and related possible witnesses dying and on possible related witnes now missing is Nancy Guthrie. How I think that my timelie of and coverup activitity increasing as I write is in part documented now on Capital Area Crime Stoppers Tip ID 103-W49440

I had been email for a month before November 2025 that corrections were needed on the story Jen Moore was telling; the story of Allen Dulles and the CIA, the Cold War and the Dulles brothers and CIA, MK-Ultra and overthrow activities, and the Donegan family in that history and Edward Paul Donegan trying to tell that story but being put at risk, smeared, denied the book at the Austin Central Public Library but bought it on my *own with Prouty and Indonesia* and as Holt, Giancana, Gunderson, other first-hand witnesses biographer inter-connect witl *Donegan and Prouty* plus Giancana and Holt both tied to Indonesia that Prouthy wrote about too. Some but not all Ed Donegan book buys or book borrows to library on Kindle

I never got ANY responses to the bungled reporting jobs (and open hit jobs by the media against her) so rather than just taking screen shots and speech to text I decided to archive the act videos of her so proof of what she was saying (not what she was reported to have said) could be made available to the public because it was what I was saying as well.

Patterns continue consistent with the Nancy Guthrie death. When I contacted NARA about Los Angeles and North American Aviaton Paul Schrade RFK Sirhan nearly died from a stabbl week later. When moved into Stay and PLay as a writer on m Electro series of a high tech atheist Jen Moore died becasue my evidence showed frauds harrassming me and my writing. W calle out Jessica Aber and EDVA mental health Jessica Aberd deid and Baxter-Siemens crash. When I went onto Mark Lane, Leeo Ryan, Ted Gunderon, Jen Moor, Ed Donegan McMarti Franklin Mk-Ultra behavoril links Nancy Guthrie went missing. Nancy Guthrie is temporalily proximal to my *General Intro* and *Jen Moore Statements* she made before her death now ir Archive cover letters in the Mailings.

As I research Paul Schrade and RFK and my birth certificate things seem to cloeslty connected

> ### ChatGPT: A precise way to state what happened (without implying prediction)
>
> On July 20, 2019, I sent a casual inquiry to the National Archives raising a speculative theory concerning the RFK assassination, including the possibility that Sirhan Sirhan could constitute a living witness relevant to that theory.
>
> At the time of writing, I had no knowledge of any imminent threat to Sirhan, nor did my correspondence suggest or imply future violence.
>
> On August 30, 2019 — approximately six weeks later — Sirhan was stabbed by another inmate in prison. The attack shocked me. While I do not claim foreknowledge or causation, incident fit a pattern I have observed over decades in which individuals I identify as potential witnesses later come to harm.

Guthrie's last post on the neighborhood messaging app Nextdoor was on **Dec. 28, 2025** in which she asked if someone was missing an Amazon package. That was only one of two posts from 2025.

The Arhcive of Jen Moore is not just downloading her assertions on Pizzagae and a highly connected "deep state" spy-ring inside the USA. Numerous topics she spoke of were acroos as many as four of five videos on that topic. I brought those seperate videos of the same topic together and reproduced them into vidoes of a single filename to upload to Bitchute. December 2025 is combining the related multi-episdoe videos of Jen Moore on YouTube and putting the combined related video full series on Bitchute in December 2025 after liscening Cyberlink products for that project. Iregular heartbeat I have between Feb 15, 2025 and June 10, 2025 begins about 2 mos to the day after I get into Marshalling Yard shelter.

Yes. The directory listing strongly suggests a batch/channel downloader such as 4K Downloader, not manual one-by-one downloading. ➜ 96 MP4 files appear in one folder. ➜ All video files have the same date: 12/12/2025. ➜ Their timestamps are packed into only 10 minutes, from 1:54 PM to 2:03 PM. ➜ Multiple large files share the exact same minute, including many between 1:59 PM and 2:02 PM. ➜ The total is about 5.56 GB, too much to realistically download manually in that window. ➜ The filenames look like preserved YouTube titles, which is typical of channel/video download tools.

Targeting Witness to Assasinations History With Thugs and Acts of Violence

ZersetungGangStalking.jpg is an info-graphic that shows a creepy figure hiding his identity and likely to engage covertly in criminla activity. A "hood" of the kind of "Spooks and Hoods" Chauncey Holt described as working for "hidden elites." Of course the Elites are not hidden they are often high ranking government officials, the use of hoods by government officials is the hidden component. The Hoods used are part of plausible deniability keeping public officials from being directly linked to illegal activities.

'Gang Stalking' is a term covering a series of counterintelligence tactics used in organised stalking. These tactics include electronic surveillance and hacking, threats, slander, blacklisting, mobbing, vandalism and psychological operations in a campaign designed to 'subvert' or 'neutralise' a targeted individual deemed by a government agency or corporation to be an enemy. Against all odds a few have risen to confront this global crime.

GrantOfAccess2.png July 1 2025 a Dallas historian and researcher on China history (PRC 1949 of course included) rents across the street from Nancy Guthrie. I assert the Guthrie family is tied to Indonesia and Suharto (as was Chauncey Marvin Holt operating at Grace Ranch of Peter Licovoli to create B-26 planes for Suharto) and that #JFK and #RFK were assinated over the #CIA backing #Suharo over #Sukarno. The rental to a University fo Arizona historian is significant. She specialized in Chinese history. My telling of #UAL553 and #MKUltra is that the #SovietUnion and #PRC created a large wall of Communism that the CIA wishe to fight. This included the #Indonesia and #EastTimor issue and she the renter is part of that history.

March 22, 2025 (age 43 years), Alexandria, VA Jessica Aber is found dead. My assertions were at the time of her death (not her time in office 2018) I was writing a file of a conspiracy targeting me with false allegations to discredit me in 2018 and that Jen Moore died in 2018 saying that conspiracy (politically motivate) existed in 2018. Because I feared the Jen Moore data would be lost and her allegations about 2018 Eastern District of Virginia woul be lost I work on the chain of events of Jen Moore death. I had been admitted to a homeles sheler Marshalling Yard in December 2024 and had the space to begin my proof Jen Moore was correct and false allegtaion discreditingh me were being made. So about 3 months into that story of Jen Moore asserting a conspiracy in EDVA Jessica Aber (no longer in office) dies in a death some find suspicious and I had been been asseting as Jen Moore had anhone who knew my family story might be at risk of foul play.

March of 2025 and Annie & Tomasso buy $650,000 home 2 miles from Nancy.

> An election for a seat in the United States House of Representatives took place in California's 12th congressional district on November 5, 1946, the date set by law for the elections for the 80th United States Congress. In the 12th district election, the candidates were five-term incumbent Democrat Jerry Voorhis, Republican challenger Richard Nixon, and former congressman and Prohibition Party candidate John Hoeppel. Nixon was elected with 56% of the vote, starting him on the road that would, almost a quarter century later, lead to the presidency.
> First elected to Congress in 1936, Voorhis had defeated lackluster Republican opposition four times in the then-rural Los Angeles County district to win re-election. For the 1946 election, Republicans sought a candidate who could unite the party and run a strong race against Voorhis in the Republican-leaning district. After failing to secure the candidacy of General George Patton, in November 1945 they settled on Lieutenant Commander Richard Nixon, who had lived in the district prior to his World War II service.

December 24, 2025 Pryloxen Notebook computer gift from self to me me me. Homeless and driven location after location (public recreation centers, libraries, coffe shops) with malicious bullying with NO basis in reality but repreated often as to gain acceptance I feel I am in danger. Often very disgusting riff-raff is slected from homeless camps and the mentally ill to conduct the bullying dircted to be carried as first responsders design and implement it. In Austin Rec center I feel so in danger I say "I wish I had brought my knife" as I am working on a 5:00 PM meal. I leave with no comments from the rec center. At a later date I am told I am not to return because I had refused to leave when told do so before. In fact that was not true. On the way out they had made a few more cheap shot type remarks to which I said something like "I jsut don't have time for this stuyff." The cops in particular the Hispanic one were on a very clear railroad and I suspeced Mark Gonzales or Austin DA or City Council/City Planner connections to the harrasment. On December 14 2024 I am admitted to the homeless shelter Marsahlling Yard but getting to the power plug to charge my laptop is dangerous as thugs make life difficult road blocking what I am doing.

Is there an oral history of the Guthrie family that is important to history and being lost?

ChatGPT: IF (posed as a question and for researh in criminology and history) a home entry was an attack on a witness both the witness may come to harm AND items in the home of the witness may dissaper from the home.

Yes — if you're describing a "*home entry*" as a *witness-intimidation / retaliation event*, it's reasonable (and common in criminology/historical case analysis) to frame two potential outcomes:

- ➜ **Harm to the witness (or attempted harm / credible threat)**, and
- ➜ Property disappearance (theft) — **often targeted (evidence, documents, phones, computers) rather than random valuables**, depending on motive.

A few ways researchers usually interpret why items might disappear in a witness-attack scenario:

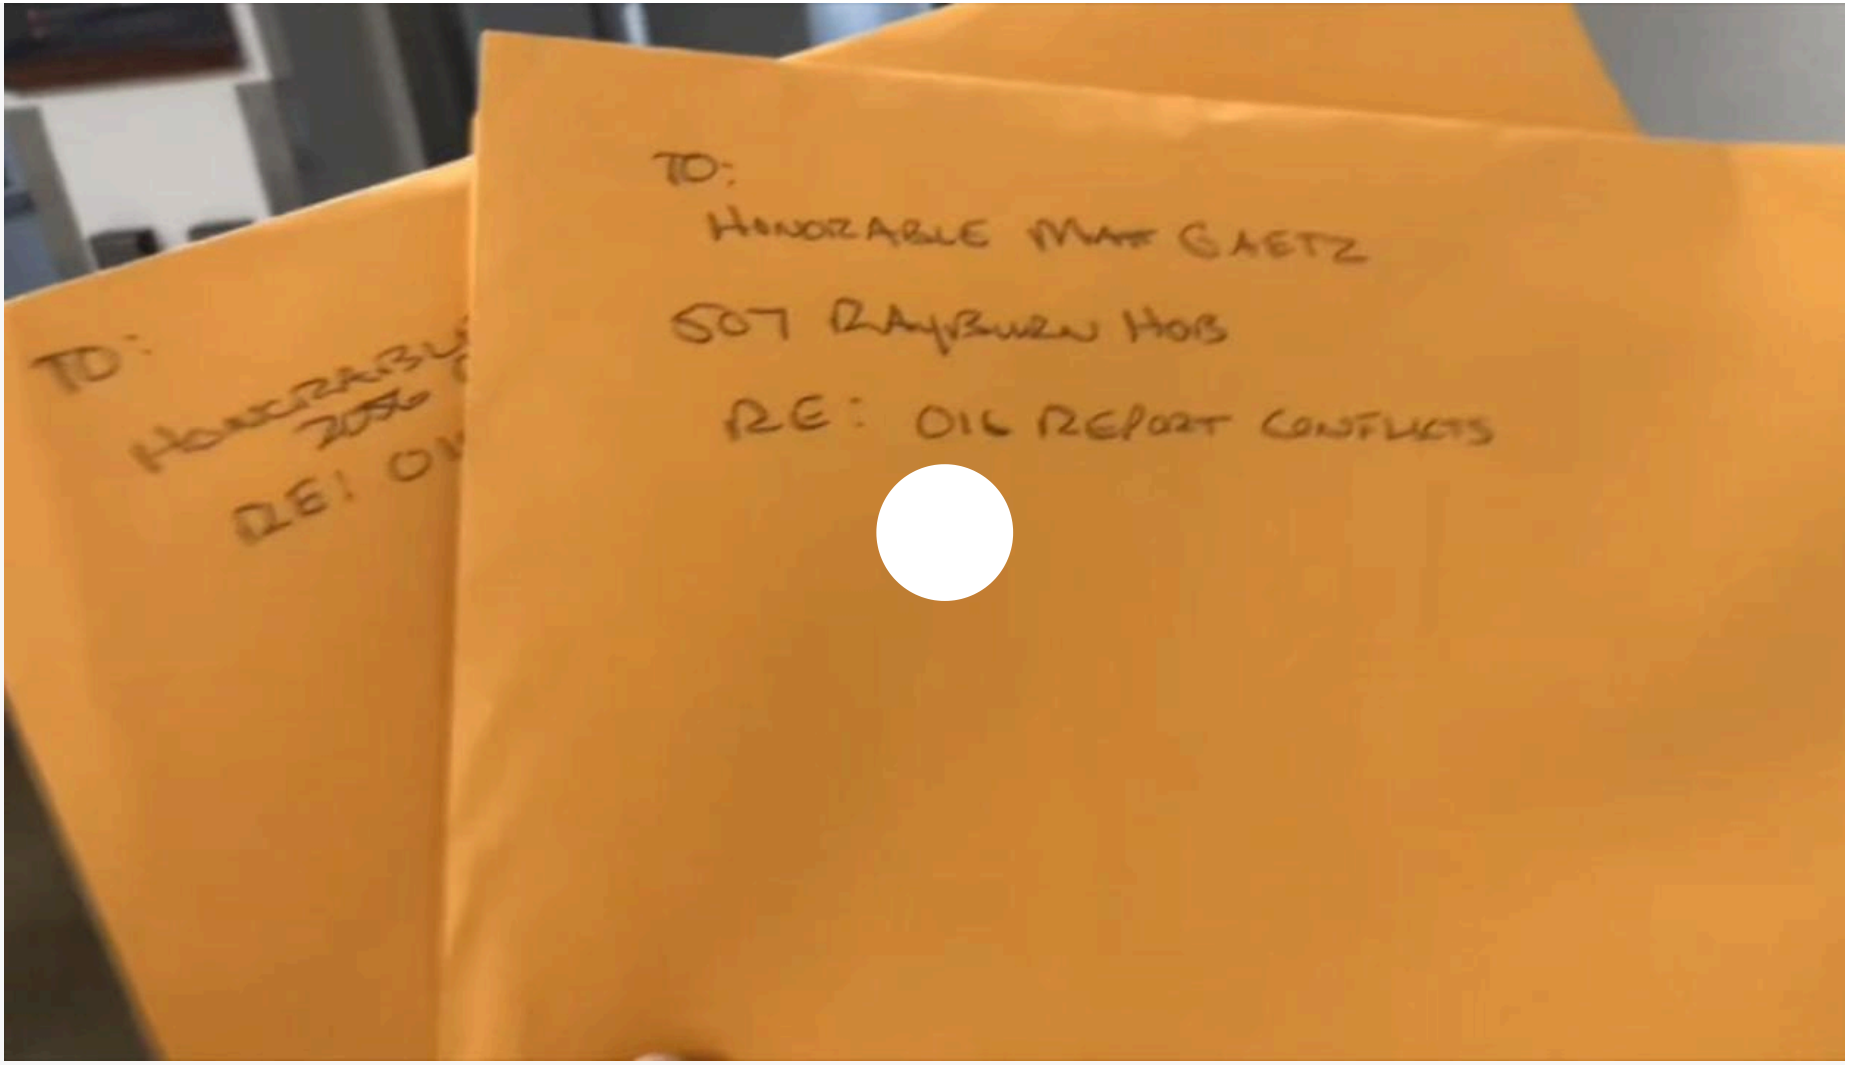
- ➜ Evidence suppression / intelligence gathering: Taking phones, notes, CCTV/DVRs, paperwork, or anything that could identify offenders or link them to a case.
- ➜ Message-sending: Theft or damage used symbolically ("we can reach you; you're not safe; you're not safe").
- ➜ Opportunistic co-occurrence: Some offenders mix intimidation with ordinary theft.
- ➜ Staging / misdirection: Making the event look like a "burglary" to reduce attention to intimidation motives.

A cleaner way to write your statement (research framing):

> If an unauthorized home entry is intended as an attack on a witness (intimidation/retaliation), then (a) the witness may face harm or credible threat, and (b) items from the residence may be taken—sometimes selectively (e.g., evidence-bearing items), sometimes opportunistically.

Useful variables to code (if you're building a dataset):

- ➜ Type of harm: physical assault, attempted assault, threats, stalking indicators
- ➜ Item type taken: cash/jewelry vs. documents/electronics/storage media vs. surveillance equipment
- ➜ Ransacking vs. selective search: suggests opportunistic theft vs. targeted retrieval
- ➜ Signs of staging: forced entry inconsistent with point of entry, valuables left behind, etc.
- ➜ Temporal proximity to testimony/cooperation: before statements, after cooperation becomes known, etc.



If you tell me whether you're writing this as a hypothesis, a coding rule, or a narrative description for a paper, I can rewrite it in the exact style you need (APA-like, operational definition, or plain-language).

to https://x.com/FBIPhoenix I think a motive could be a "hit" in the matter of Nancy Guthrie. I do not have any reason from what I know to suspect any Guthrie family members is suspects but they may be persons-of-interest in that any of the family members COULD possess information realted to the family biography of the Guthries. This suggests if true and the worst case scenario possible risk to other family members who are in their lives in the possesioin of the #OralHistory of they Guthrie family and mineral interets in the region of Australia. Gathering the family oral history may be important. Whle no indication Charle Guthrie was tied to Suharto iti is possible connections of Charles Guthrie did talk about the matter.

Yes — oral history is very common in JFK-assassination research, and you can absolutely use that same methodology for a Donegan family oral history project. The key is to borrow the best practices from JFK researchers (source labeling, provenance, corroboration) without inheriting the worst habit (letting family lore "upgrade" into fact without support).

Where the big JFK oral-history archives actually are JFK Presidential Library (primary, institutional)

The John F. Kennedy Presidential Library has dedicated oral history collections (JFK + RFK) with well over 1,600 interviews total, and many transcripts are digitized online. You ca browse the JFK Oral History Collection directly here (finding aid / viewer). And the RFK Oral History Collection is similarly available.

"JFK" site that's not the Library: JFK Library Foundation oral history project There's also an Oral History Project run via the JFK Library Foundation site ("http://jfk.org"), focused the Kennedy era and the 1960s, with thousands of recorded oral histories. Assassination-focused community archive (documents-heavy, some audio/multimedia)

A few pieces of what you pasted are real/verifyable, and the "Epstein-files → therefore this kidnapping" storyline is (so far) not supported by evidence.

What's real / verifiable

- ➜ Savannah Guthrie's mother, Nancy Guthrie, is missing and authorities are treating it as an abduction. The FBI has publicly increased the reward and released suspect details. (reuters.com)
- ➜ Michael Feldman and Joe Lockhart did co-found The Glover Park Group, and that firm ultimately became part of FGS Global via mergers. (en.wikipedia.org)
- ➜ Joe Lockhart did own the D.C. house associated with the Obamas' post–White House living situation (reported as a lease in 2016; later reporting describes a sale to an Obama-controlled LLC in 2017). (marketwatch.com)
- ➜ Stefanie Herscowitz Rothschild's 2021 death appears to be a tragic accident during a severe storm (a tree fell on her vehicle), not something mysterious per the reporting/obits. (centralmaine.com)

What the "rabbit hole" claims don't establish

1) "FGS Global is listed as a co-conspirator in the Epstein files"

The reporting about "co-conspirators" in DOJ releases refers to people the FBI was tracking as potential accomplices; many names are redacted, and those disclosures don't equate t charges. (abcnews.go.com) A PR firm being mentioned somewhere (or being connected to people who knew political figures) is not the same thing as being "listed as a co-conspirat

2) "Savannah Guthrie IS in the Epstein files"

I'm seeing this claim circulate largely via social posts and tabloid-ish writeups repeating social posts, not primary documentation or reputable reporting that shows she is named in a meaningful way. (hindustantimes.com) Also: even when someone is mentioned in Epstein-related documents, that can be as trivial as appearing in a contact list or being referenced i third party's email—mention ≠ wrongdoing. (abcnews.go.com)

3) "This explains why the kidnapping is happening now"

That's a classic pattern of post-hoc narrative building: take a real, high-emotion event and staple it to a separate scandal using associations (Clintons → PR firms → "scrubbing" → Epstein) without any verifiable link. As of the credible reporting available, law enforcement has not tied the abduction to Epstein materials. (reuters.com)

A quick way to sanity-check this kind of chain

If you want to test the claim rigorously, do these three checks:

- ➜ Primary-source check: does a reputable outlet quote or link to the actual document page showing "Savannah Guthrie" or "FGS Global" as a "co-conspirator"?
- ➜ Category check: is the "mention" actually a legal designation (charged/co-conspirator) or just a name appearing in a dump? (abcnews.go.com)
- ➜ Independence check: are multiple independent high-quality outlets confirming the same specific fact, or is everyone citing the same viral post?

If you paste the specific "Epstein files" page/link people are pointing to, I can help you verify exactly what it says and what it doesn't.

A Spy Ring in Eastern District of Virginia Mental Health Services with DNC ties

In 2018 Jen Moore was reporting it and in 2025 I was asserting that as well and included counseling figures. The Penney Asheley was a bitter leftist who became confused when I used w like "cognitive" or "dialectic" but I wrote many very knowledbale works on Ethos, Pathos, Logos, and Ethics and Epicurian and Stoic history including in emotions. Except the time Bec

Penney Asheley asserted Louis Brandies had been a a Nazi spy I idealized and she had never heard of Hegal at at or th Master Slave Dialetic (of thesis and Antithesis) and was sure Hegel was the same Nazi conspirator that Justice Brandies was. In the years before that my father James Paul Donegan have studied and talked together about the Nuremburg Trials and Justice Brandies inq Zionism, Justice Jackson who prosecuted the Nuermburg trials, etc.,

I assert as did Jen Moore that the FBI DHS and Arlingtoin County Services DHS menatl health exploited my presence in counseleing that was prison ordered to become subject matter e on issues that were part of my life interests.

Your adaptation - **“In the garden of crime and the fruits of crime, Truth is a weed”** - is an elegant inversion of the original Shadow maxim. It repositions the moral structure: instead crime being the weed, it imagines a world where crime has become the cultivated soil, and *truth* itself is what must struggle to survive within it.

Here are several possible adaptations in that same spirit, preserving the rhythm and tone of *The Shadow* while expanding it to the realm of organized crime and its hostility to truth:

- **“In the garden of crime, Truth is the weed they cannot root out.”**
- **“In the orchard of corruption, Truth is the bitter fruit.”**
- **“Where crime is cultivated, Truth grows wild and unwanted.”**
- **“The lords of crime sow lies for profit, but the weed of Truth breaks their soil.”**
- **“In the garden of crime, the bloom of Truth is feared more than the sting of justice.”**

Copilot: “In the garden of evil, every fruit of crime bears the venom of its roots.” The criminal may not believe a good gained from crime is poisoned by the illegal aquision of it. To ther shiny apple. But they committed a crime in aquiring it and thus they are now criminals and now have a property that is toxic to them. Has this ever been heard of before?

William T. Aber, Jr., affectionately known as Bill, passed away peacefully on June 29, 2025, in Wilmington, NC, at the age of 92. Born on October 25, 1932, in Pittsburgh, PA, Bill lived marked by dedication to his family, career, and country. After completing high school, Bill began his professional journey as a candy cutter for Christmas candy canes. He soon moved o work at a steel company in Pittsburgh before transitioning to a glass company in Ohio, where he excelled as a trainer and personnel manager. His career took him to New York with Baxt Labs, followed by transfers to Illinois and Mexico, where he served as a general manager. Bill later became the Vice President of Personnel and Public Affairs for a medical company in Richmond, VA. His career continued to flourish when he joined EMI Technology in Illinois, eventually being promoted to vice president and overseeing operations in Concord and San Francisco, California. Bill was an avid golfer, enjoyed reading, and loved completing sudoku puzzles. His keen intellect earned him acceptance into Mensa International in April 2009.

A dedicated worker and family man, he also pursued a passion for flying, becoming an active pilot and owning his own airplane later in life. His service to his country was notable; Bill e in the US Army in 1951, serving as a radio operator and repairman. He was onboard a carrier for atomic testing and spent time in Germany listening to codes and radio traffic. He receiv honorable discharge in 1953.

Bill was preceded in death by his beloved parents, William T. and Ruth Johnson Aber, his brother Robert Aber, and his cherished daughter Jessica.

March 22, 2025 Jessica Aber was found dead. 19 days days later: A helicopter tour over New York City, involving a Siemens executive and his family, crashed into the Hudson River on 10, 2025, resulting in the deaths of all six people on board. The victims included Agustin Escobar, a Global CEO at Siemens Mobility, his wife, and their three young children, along witl pilot. > 1) The Motivation for the Crime 2) The Perpetrators of the Crime 3) The location of the Crime 4) The time of the crime 5) The Process of the crime. I am thinking about Nany Gurthrie and "Who would do this? The crime scene at the house, and then the hunt for other locations that might tied to the crime such as a local hideout that was used. In Criminology what is the formal model for this investigative type of approach?

What you're describing isn't a single named model so much as a **cluster of formal investigative frameworks** in criminology and criminal profiling. Your list—**motive, offender, location, time, and process (method)**—maps very closely onto several established approaches.

Here are the main ones, and how your thinking fits into each:

1. Crime Scene Analysis (CSA) / Criminal Profiling

This is the closest match to what you're intuitively doing.

Developed in part by the FBI Behavioral Analysis Unit, this approach systematically examines:

- ➜ Behavior at the scene → What happened?

- ➜ Victimology → Why this victim?
- ➜ Modus operandi (MO) → How was it done?
- ➜ Signature behaviors → Psychological needs of the offender
- ➜ Spatial and temporal patterns → Where and when

Your list aligns almost perfectly:

- ➜ Motivation → psychological + situational analysis
- ➜ Perpetrator → offender profiling
- ➜ Location → spatial behavior
- ➜ Time → temporal patterning
- ➜ Process → MO and signature

This is often called the **Behavioral Evidence Analysis** framework, also associated with Brent Turvey.

2. The "Motive–Means–Opportunity" (MMO) Model

A classic investigative triad used in criminology and policing.

- ➜ Motive → Why commit the crime?
- ➜ Means → How could they do it?
- ➜ Opportunity → When/where could they do it?

Your framework expands MMO into a more detailed structure:

- ➜ "Process" = Means
- ➜ "Location + Time" = Opportunity
- ➜ "Perpetrator" = who satisfies all three

This model is simple but foundational—often the starting point in investigations.

3. Routine Activity Theory

From Lawrence E. Cohen and Marcus Felson.

It explains crimes through convergence of:

- ➜ Motivated offender
- ➜ Suitable target
- ➜ Absence of capable guardian

Your thinking about **"who would do this?" + "why here?" + "why then?"** fits directly into this framework.

4. Geographic Profiling (Spatial Analysis)

This is especially relevant to your idea of:

"the crime scene at the house… and then the hunt for other locations… like a hideout"

Geographic profiling, pioneered by Kim Rossmo, studies:

- ➜ Crime locations
- ➜ Travel patterns
- ➜ Anchor points (home, work, hideouts)

It tries to infer:

- ➜ Where the offender lives or operates
- ➜ How different crime sites are connected

This directly matches your "multiple locations tied to the crime" idea.

5. Linkage Analysis

Used to determine whether multiple crimes are connected.

- ➜ Compares MO, signature, victim type, geography
- ➜ Looks for behavioral consistency

Your “hunt for other locations tied to the crime” is essentially **linkage analysis in action**.

6. The “5 W’s and H” Investigative Framework

A very old but still formal structure:

- ➜ Who (perpetrator)
- ➜ What (crime)
- ➜ Where (location)
- ➜ When (time)
- ➜ Why (motive)
- ➜ How (process)

What you wrote is basically a **modern criminological version of this framework**, enriched with behavioral analysis.

Putting It All Together

What you’re describing is best labeled as a combination of:

Behavioral Evidence Analysis + Geographic Profiling + MMO framework

If you wanted a formal name for your exact structure, the closest would be:

Behavioral Evidence Analysis (BEA) with spatial/geographic profiling

One important correction

> You mentioned “Nany Gurthrie”—you may have been referring to Nannie Doss (sometimes called the “Giggling Granny”). If that’s the case, your framework would absolutely be u
> to analyze her crimes—especially motive (financial/relationship), method (poisoning), and victim selection.
>
> **Bottom line**
>
> You’re essentially thinking like a profiler already. The formal academic label for your approach would be:
>
> **Behavioral + spatial crime analysis within a structured investigative framework (BEA/MMO hybrid)**
>
> I can also convert this into stricter semantic HTML with headings and nested lists if you need that exact format.

I have Capital Area Texas (who may have me on /ignore) an open tip ticket Website: http://p3tips.com Tip ID: 103-W49440 I am submitting information to that Nancy Gutrhie was likely of string of deaths tied to US history that occured during her lifetime and areas Charles worked in. Serial homicide, while posing an elevated and sustained threat to public safety due to i recurrent nature, can yield a comparatively richer evidentiary and behavioral dataset across incidents. This cumulative patterning enables more robust investigative linkages and offender profiling. However, such analytical value is contingent upon the recognition of the offenses as behaviorally and motivationally connected; absent this linkage, the interpretive framework necessary to infer offender characteristics, intent, and signature behaviors is significantly diminished.

Abstract

Ed Donegan asserts that powerful forces involved in the cover-up of the JFK assassination deployed contractors, informants, and psychological manipulation (threats, attacks, break-ins) to harass and intimidate witnesses. Among those targeted were whistle blowers like Jen Moore and Ed Donegan himself , whose family history-particularly that of Jam Paul Donegan and Glorian Donegan -intersected with Cold War intelligence, atomic research and genetic research, and covert MK-Ultra operations. Though the full scope of that lineage detailed here, its implications appear to have triggered surveillance and retaliation through legal and mental health systems. This essay explores the **patterns of harassment, the misuse psychiatric institutions, and the silencing of dissent that Jen Moore warned about days prior to her death.** These attacks have been the theft of my computer during the researching writing of my biography, harrassment in other forms, theft of my mail to others, death threats I have recieved, and Jen Moore reported FBI contractors had given to her, if she did not "sh friggin mouth." Other harrassment has included preemption of my writings also by contractors and other agents of Demostic Terror operations with high ranking political authorizations Whitehouse levels or by white house operatives from the political side of operations.

Jen Moore’s correct assertion is that my family line is covertly tied to “high” officials-John F. Kennedy and the esteemed office of the U.S. President through socialization into the Bosto Massachusetts Irish immigrant community, and on my mother’s side, through the biology of out-of-wedlock high officials of Europe. This hidden family identity has served both as a ma for generational racketeering and as a reason for silencing the story of the Donegan's and atomic testing.

An Abstract on Jen Moore assertions she made and an Abstract on the how she was misnderstood in reporting.
